

KLOPFHÄUSER

Zahlen

Spielanleitung:

Es gibt ein Haus für jede Menge bis 10.

Anleitung am Beispiel des 5er-Hauses:

Im 5er-Haus wohnen 5er-Freundinnen (d.h. Mengen, die zusammen 5 ergeben: 2/3; 1/4; 5/0)

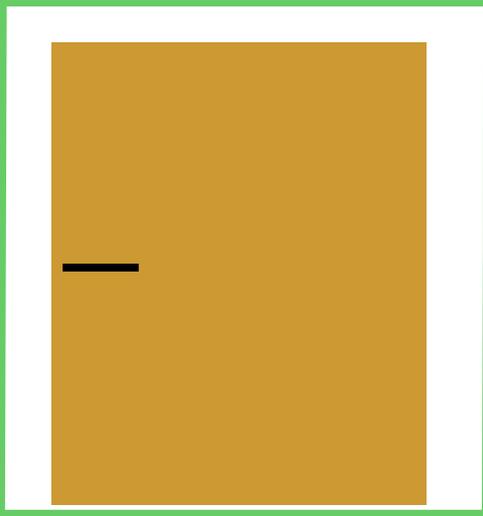

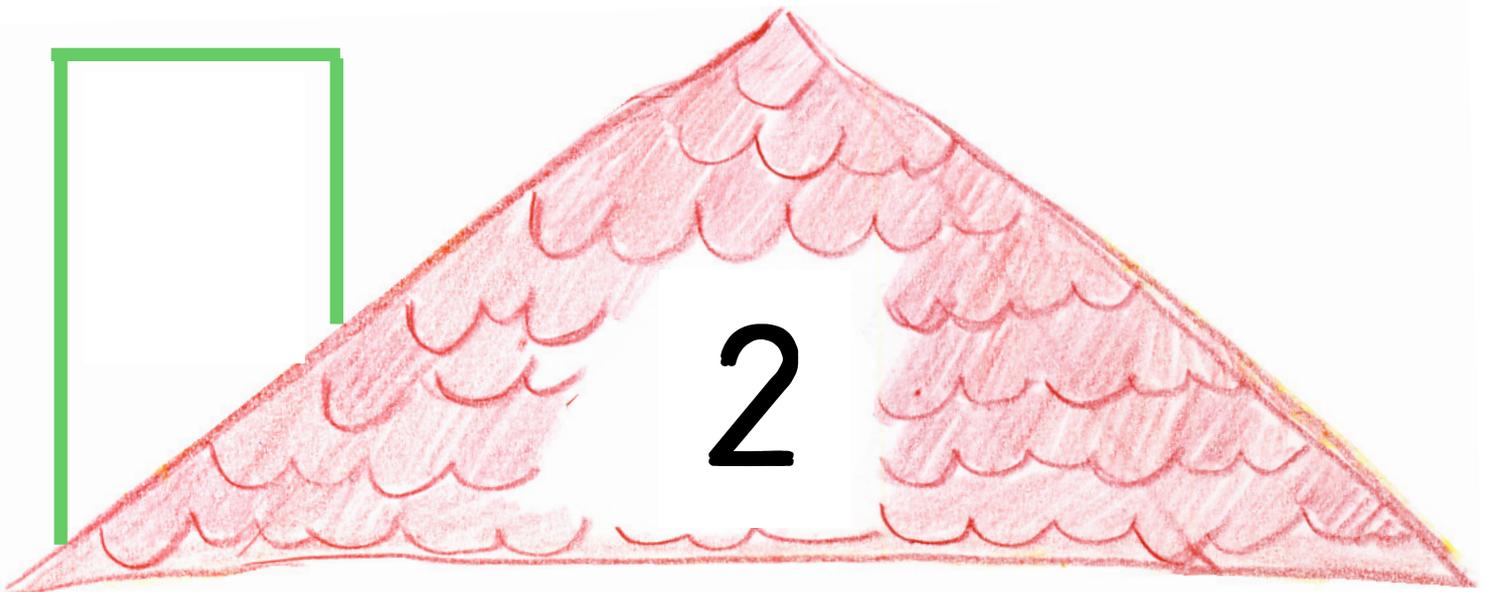

Die erste Spielerin beginnt und klopft mit der Faust auf eine Freundin.

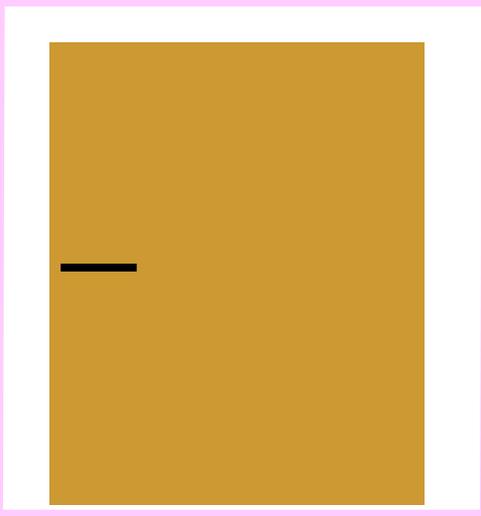

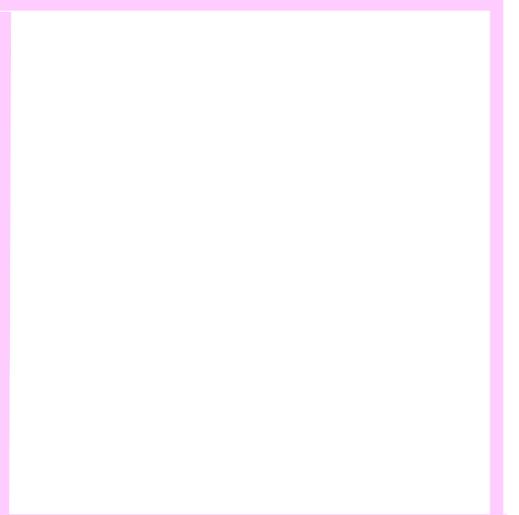

Die zweite Spielerin muss nun so schnell wie möglich auf die richtige 5er-Freundin klopfen.

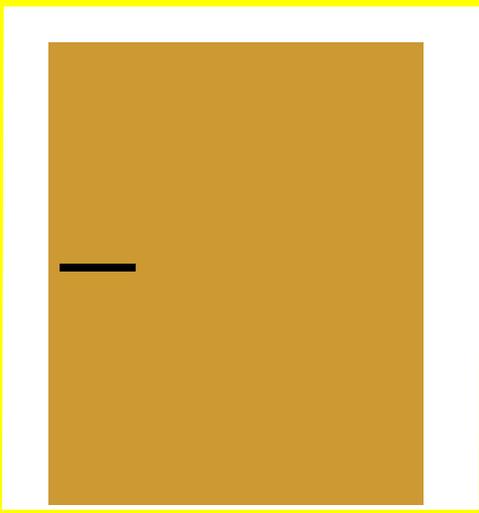

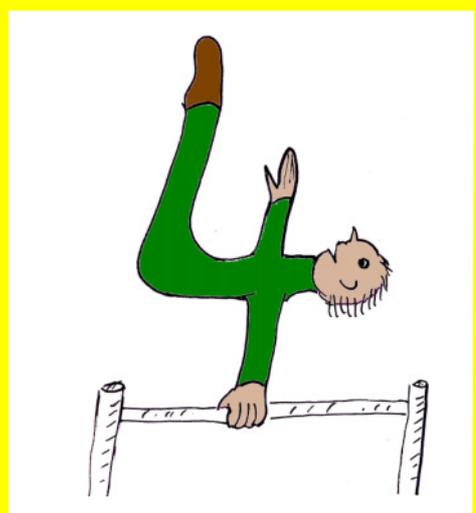

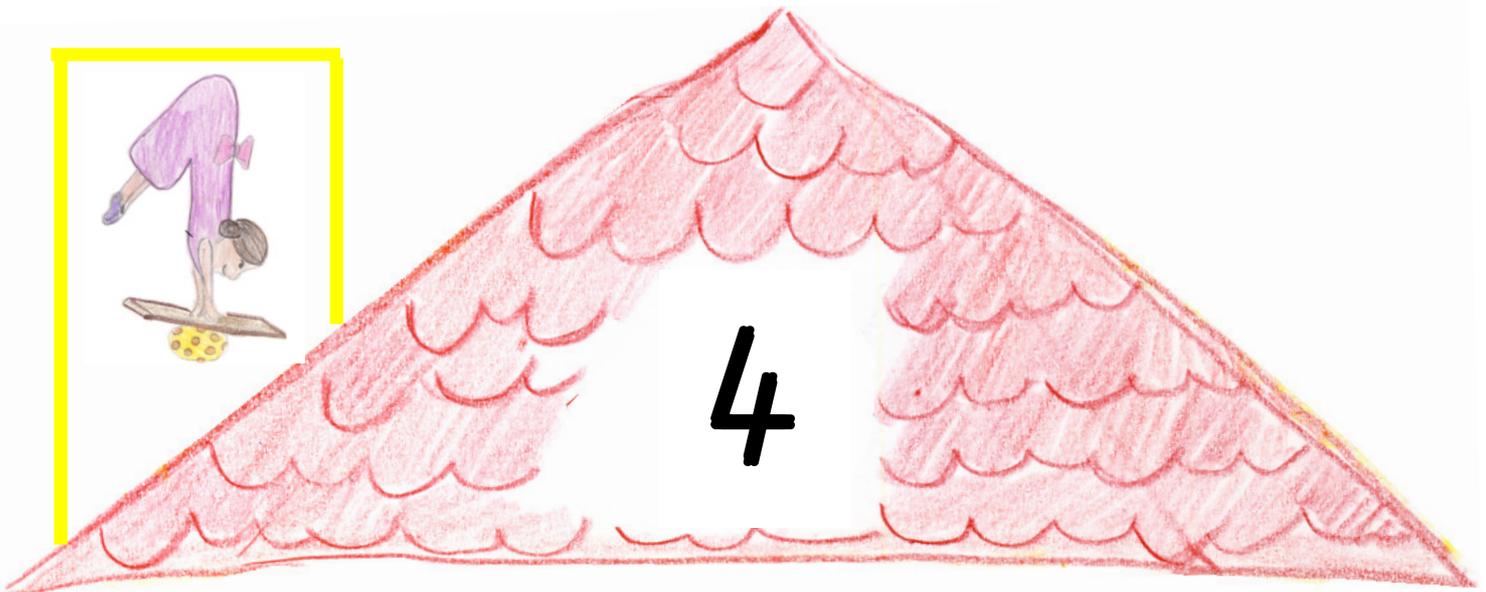

z.B. Spielerin 1 klopft auf 4

 Spielerin 2 klopft auf 1

Die Häuser können auch zum Klopfen von +/-/zerlegen/ergänzen benutzt werden. Hier muss die erste Spielerin die beiden Zahlen der Rechenaufgabe klopfen. Die zweite Spielerin klopft dann das Ergebnis.
